

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Original): An acidic oil-in-water emulsified composition, comprising fats and oils comprising 30 wt% or more of diglycerides and an enzyme-treated yolk treated with one or more enzymes selected from the group consisting of esterase, lipase and phospholipase, further comprising an antioxidant at 1000 to 10000 ppm relative to an oil phase containing the fats and oils and at a weight ratio of 0.4 to 4.5 relative to the net weight of yolk in the enzyme-treated yolk.

Claim 2 (Original): The acidic oil-in-water emulsified composition according to claim 1, which further comprises an emulsifier.

Claim 3 (Currently Amended): The acidic oil-in-water emulsified composition according to claim 1 ~~or 2~~, wherein the antioxidant is one or more members selected from the group consisting of tocopherols and tocotrienols.

Claim 4 (Currently Amended): The acidic oil-in-water emulsified composition according to claim 2 ~~or 3~~, wherein the emulsifier is at least one or more members selected from the group consisting of sorbitan fatty acid ester, polyglycerin fatty acid ester and sucrose fatty acid ester.

Claim 5 (Currently Amended): The acidic oil-in-water emulsified composition according to ~~any one of claims 1 to 4~~ claim 1, which further comprises phyto-sterols.

Claim 6 (Currently Amended): The acidic oil-in-water emulsified composition according to ~~any one of claims 1 to 5~~ claim 1, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 7 (New): The acidic oil-in-water emulsified composition according to claim 2, wherein the antioxidant is one or more members selected from the group consisting of tocopherols and tocotrienols.

Claim 8 (New): The acidic oil-in-water emulsified composition according to claim 7, wherein the emulsifier is at least one or more members selected from the group consisting of sorbitan fatty acid ester, polyglycerin fatty acid ester and sucrose fatty acid ester.

Claim 9 (New): The acidic oil-in-water emulsified composition according to claim 2, which further comprises phyto-sterols.

Claim 10 (New): The acidic oil-in-water emulsified composition according to claim 3, which further comprises phyto-sterols.

Claim 11 (New): The acidic oil-in-water emulsified composition according to claim 4, which further comprises phyto-sterols.

Claim 12 (New): The acidic oil-in-water emulsified composition according to claim 7, which further comprises phyto-sterols.

Claim 13 (New): The acidic oil-in-water emulsified composition according to claim 8, which further comprises phyto-sterols.

Claim 14 (New): The acidic oil-in-water emulsified composition according to claim 2, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 15 (New): The acidic oil-in-water emulsified composition according to claim 3, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 16 (New): The acidic oil-in-water emulsified composition according to claim 4, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 17 (New): The acidic oil-in-water emulsified composition according to claim 5, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 18 (New): The acidic oil-in-water emulsified composition according to claim 7, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 19 (New): The acidic oil-in-water emulsified composition according to claim 8, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.

Claim 20 (New): The acidic oil-in-water emulsified composition according to claim 12, wherein the content of trans-unsaturated fatty acids in fatty acids constituting the diglycerides is 5 wt% or less.
